

STUDENT PERFORMANCE AND LEARNING OUTCOMES

The institute offers various UG courses and the outcomes are analysed and evaluated by various means like intradepartmental student's seminars, written or oral assessments, project works, field surveys, class attendance etc.

Project Works – Students participating in educational tours / excursion have to submit project reports on the same. Students can demonstrate their skill in interpretation and analysing on any topic of their academic interest.

Evaluation – Written examination or oral exercises / discussions are conducted to evaluate academic progress of a student.

Class Attendance – Students are encouraged to regularly attend classes both offline and online. This not only helps in her academic excellence but also inputs a sense of honesty and sincerity in them. Students are motivated to participate in seminars, webinars, quiz contests, group discussions, debates, sports and other extension activities.

Presentation – Students are encouraged to deliver speeches through computerized presentations on topics related to their syllabus. This builds confidence in them for public speaking and also develops knowledge on topics of interest.
