

VIRTUAL CLASSROOM

The college has a VIRTUAL CLASSROOM on the 3rd floor of Vidyasagar Bhaban, where we have facilities for our students, since 2017. This is an ONLINE LEARNING ENVIRONMENT that allows the teachers and students to communicate, interact, collaborate, explain ideas. The Department of BENGALI, SANSKRIT, ENGLISH, PHILOSOPHY, POLITICAL SCIENCES, GEOGRAPHY, CHEMISTRY. etc., frequently use this platform to provide their courses as per syllabus. This is more student-friendly and time-saving than power-point-presentation. Teachers can take instant live - presentations through a projector and online white board with the help of a STYLUS. Teachers can also use Screen share to show the students further information in regards to the topic being shown. Taught classes can be recorded, links to which are shared with students respective WhatsApp group or the teacher 's personal YouTube channels which are backed by our college. The target difference between our VIRTUAL CLASSES and OTHER ONLINE COURSES is that one is hosted LIVE while the other is or PRE-RECORDED. We intend to use VIRTUAL CLASSES to interact with students. The students can ask to our teachers their questions and get instant answers or feedback. Meanwhile, the interaction level between students and our teachers is wonderful during VIRTUAL CLASSES. This helps to track student's progress, even, keep them actively engaged and motivated. Afterall, live classes with some online tools, can provides a SYNCHRONOUS and more INTERESTING learning experience for students and it helps our students to make attachment with our Faculty after COVID pandemic. At the end of the day, in blended mode of learning process, we are using VIRTUAL CLASSESS to acquire knowledge more productively.
